The DRUG LITERATURE INDEX covers the total world output of Biomedical Journals
The DRUG LITERATURE INDEX gives you rapid access to any article concerning any drug published anywhere in the world

- COVERAGE
  All articles on drugs from 3,000 biomedical journals (20,000 issues per year).

- INFORMATION RECORDED
  Citation
  1. The full title of the article in English.
  2. Original title of article if in a language other than English.
  3. Name of Author(s).
  4. Affiliation of Author(s).
  5. Title of Journal where article appeared.
  6. Year of Publication, Volume and Page number of Journal.

  Indexing Terms
  1. Generic Names of Drugs in article (if no generic name then chemical or experimental name or code number).
  (Mixtures of drugs are indexed by their trade names and by the generic names of constituent drugs).
  2. Trade names of Drugs in article with Manufacturer and Manufacturer's location (when given in article).
  3. A comprehensive set of Medical Indexing Terms (clinical indications and contra-indications, chemical and pharmacological effects).
  4. Adverse Reactions to drugs noted by Author.
  5. Assignment of article to Drug Class(es).

- TECHNIQUE
  Indexing terms abstracted by medical specialists: input citations and indexing terms to computer: synonyms translated to preferred terms via thesaurus: computer sorts generate multi-index system for access to article data: output tapes–digiset–print monthly hard copy.

- RETRIEVAL VIA
  1. Generic Names Index
  2. Drug Class Index
  3. Manufacturer Index
  4. Adverse Reactions
